

Prompting for Success: Using Generative AI in English Language Teaching

SALERNO **16 Ottobre 2026**

PUNTOLINGUE SALERNO
Stazione FS Binario 1, Piazza Vittorio Veneto

This practical and interactive session will explore how English language teachers can use generative AI effectively in their everyday teaching. We will look at how well-designed prompts can support lesson planning, materials creation, differentiation, classroom activities, feedback and assessment.

Through practical examples, participants will learn how to create more effective prompts, evaluate and refine AI-generated content, and adapt it to the needs, levels and learning objectives of their students. The session will also touch on the opportunities and challenges of using AI responsibly in English language teaching, while emphasising the essential role of the teacher in the process.

Destinatari:

Il corso si rivolge a docenti di lingua inglese di scuola Primaria e Secondaria.

Venerdì 16 Ottobre 2026

Yasemin Kaya

Yasemin Kaya is the Western Europe Regional Manager at Holmes Education Group and an experienced English language educator with approximately 20 years of teaching experience. Before moving into international education and business development, she worked extensively as an English language teacher in Türkiye. She holds an MBA with Leadership from the University of the West of Scotland and currently works with educational institutions and partners across Western Europe. Combining her background in language teaching with her experience in international education, she has a particular interest in the practical application of emerging technologies and generative AI in English language teaching.
